

The solution is You. Join a stable and growing company!

Pest Elimination, Service Specialist

MAIN RESPONSIBILITIES: In this full-time service position, you will provide timely and cost effective pest elimination and preventative solutions to a variety of restaurant, lodging, and food service customers. You will partner with your customers to provide a solutions oriented approach to resolving their pest challenges, sanitation and structural concerns.

TERRITORY: seeking applicants to service customers in Vancouver/Lower Mainland.

KEY QUALIFICATIONS: High School diploma or equivalent plus previous front line service experience. Strong organization skills, disciplined work style and a self starter. You must be available to respond to customer emergency service requests on weeknights, weekends, and holidays in a 24/7-work environment. You have good communication skills, strong computer skills, a valid driver's license and good driving record and are able to lift and carry 50 pounds.

BENEFITS: Ecolab will offer you a competitive income and benefits package including a base salary, commission, and bonus potential. At Ecolab, we understand that the benefits we provide must go beyond caring for your health – they must also provide for your financial well being. That's why in addition to medical, dental and disability coverage, we also provide you a company service vehicle, stock ownership opportunities, training and education reimbursement plan, and pension plan.
